

CCA-X

- precision pressure transmitter for process industry
- nominal pressure: from 0...400 mbar up to 0...600 bar
- output signals: 2-wire: 4...20 mA
- HART® communication
- stainless steel sensor
- accuracy 0.1 % span
- turn-down 10:1
- two chamber aluminium die cast case or stainless steel field housing
- internal or flush welded diaphragm
- optional: integrated display and operating module, special materials as Hastelloy®and Tantalum, cooling element for media temp. up to 300°C

The process pressure transmi er CCA-Xi has been especially designed for the process industry as well as food and pharmaceu cal industry (version stainless steel field housing) and measures vacuum, gauge and absolute pressure ranges of gases, steam, fluids up to 600 bar.

Di erent process connec ons such as threads and flanges with an internal or flush welded diaphragm are available and can be combined with a cooling element for media temperatures up to 300°C. The transmi er is as a standard equipped with HART®-communica on; the customer can choose between a two chamber aluminium die cast case or a stainless field housing.

PREFERRED AREAS OF USE ARE

Oil and gas industry / Chemical and petrochemical industry

Food / Pharmaceutical industry

TECHNICAL DATA

Pressure ranges 1												
Nominal pressure gauge / abs. ^{2,*}	[bar]	0.4	1	2	4	10	20	40	100	200	400	600
Overpressure	[bar]	2	5	10	20	40	80	105	210	600	1000	1000
Burst pressure	[bar]	3	7,5	15	25	50	120	210	420	1000	1250	1250

¹ On customer request we adjust the devices within the turn-down-possibility by software to the required pressure ranges.

Food compatible oil (temperature max. 150 °C) ⁴		2		
Halocarbon ⁴		С		
Customer		9		
Special version				
Standard			0 0 0	
With cooling element from 125 °C up to 150 °C			1 5 0	
With cooling element from 150 °C up to 300 °C (P _N 70 bar max. 20	00 °C permanent) ⁴		2 0 0	
Customer			9 9 9	
Accessories				
3.1 Material Certificate for Membrane and Mechanical Connection				
Settings in temperature di erent from basic 20 °C (+/- 10 °C, max. 7	70 bar and 200 °C)			
Diaphragm Seal				
Capillary tube Flange with integral extended diaphragm				
Extension length up to 100 mm				
Extension length between 100 - 200 mm				
Mounting Bracket				
Universal holder (for pipes Ø 26,5 mm)			50	02004
Programming				
HART® modem HM02 + USB including SW CONFIG			50	031837

If setting range shall be $\operatorname{di}\$ erent from nominal range please specify in your order

- 1 absolute pressure possible from 1 bar
- 3 only possible for $P_{N}\quad 1$ bar up to 40 bar
- 4 only possible with process connections
- 5 tantal diaphragm possible with nominal pressure ranges from 1 bar 6 min. permissible temperature from -15°C, possible for nominal pressure ranges $P_N 100 \ bar$
- 7 only for P_N 40 bar
- 8 welded version only with pressure ports according to EN $837\,$

!!! When you make an order it is necessary to fill the questionnaire for transmitters with separators!!!

Manufacturer reserves the right to change sensor specifications without further notice.
